

I agree that the state should be able to eforce a bill that limits this sales call activity. Of what use is the control if there are exceptions granted. Individuals are constantly bombarded with sales ads on t.v., radio, print ads. If I don't want to hear or see it I can turn it off, or put it down, there is some element of control. Without these limits, I have no control over those unwanted sales calls. Privacy is becoming more and more difficult to maintain, but this measure does help.
